 **SUSTAINABLE**
S Q U A R E

As sustainable finance gains momentum in the region, the discussion will explore the rapid growth of green bonds, sukuk and other ESG-linked instruments, highlighting their role in shaping a more sustainable future. Participants will gain insights into how markets in the Arab world are adapting to global sustainability trends, the opportunities for becoming a responsible investor, and the challenges to anticipate. This session is relevant for anyone looking to understand the future of fixed income and sustainable finance in the region.
